Industrial Fire & Gas Detection <-> Wireless Gas Detection <-> Flame Detection <-> Dedicated Life Safety Controllers

For nearly 50 years, Honeywell Analytics has been protecting people who put their lives on the line every day. Choose from a wide range of gas detection systems from Complete Fixed Industrial Systems, Portable Gas Detection, Wireless Gas Detection, and Flame Detection. Honeywell Analytics manufactures a full and comprehensive range of products, setting the benchmark for the industry.

Honeywell | Industrial Fire Protection

Honeywell Industrial Fire Protection is one of the world's leading suppliers of industrial safety systems. We take pride in working together with our customers all around the world to emphasize safety education and the creation of a safety culture. We strive to evolve standards with our partners and provide cutting-edge industrial safety solutions and support in the areas of smoke, flame & gas detection, extinguishing, voice alarms and safety systems.

azbil Azbil North America, Inc.

<https://us.azbil.com/> Azbil North America, Inc. is an overseas affiliate in North America of Azbil Corporation and has been serving a wide range of industries in North America with industrial automation and control products since 1996

Acromag's signal conditioning line features more than 100 transmitters, isolators, alarms, and computation modules. If networked I/O is required, Acromag offers analog and discrete I/O modules for Ethernet, Modbus, and Profibus.

www.Controlair.com
Precision Air Pressure Regulators • I/P Transducers • E/P Transducers • P/I Transducers • Valve Positioners • Air Relays, Volume Boosters • Air Filter Regulators • Frictionless Diaphragm Air Cylinders.

www.maxi-signal.com Maxi-Signal Products Company, a division of Mill Specialties Inc., has been serving the commercial and industrial signaling products industry for over 46 years. With a vast product offering covering LED and strobe lights, sirens, miscellaneous signals, status lights, lighting equipment, fans and heaters, fire alarm pull boxes and remote strobe heads, including NEMA 4X, Hazardous, and Explosion Proof fixtures for both visual and audible signaling in Marine and Industrial environments, Maxi-Signal assures the highest quality at the best value.

www.driair.com Reading Technologies, Inc.
Increase efficiency and quality of the compressed air in hundreds of applications. Patented Inverse-Flow Filter/Dryers, Tool-less Element Change, Finer Filtration, Custom Engineered Products.
When only the finest and cleanest air will do.

Nan-Ya Photonics

Industrial explosion-proof, Hazardous Locations, Commercial Buildings and Office LED Lighting.

www.AccurateControl.com An industry leading manufacturer of standard and custom engineered controls, motor control, and power distribution equipment for hazardous and non-hazardous environments.

Air Dimensions Incorporated has more than 60 years of combined experience in the development, engineering and production of precision gas sampling diaphragm pumps and compressors

BLISS ANAND
The Spirit to Walk an Extra mile

Bliss Anand is a leading manufacturer of field instruments for process and power industries including Sight Glasses, Magnetic Level Gauges, Magnetostrictive Transmitters and Farris Safety Relief Valves.

Dekoron Unitherm is the inventor of pre-insulated and heat traced tubing for heavy industry. We have been producing pre-insulated and heat traced tubing bundle since 1962. With over 50 years experience and in excess of 100 million feet of product.

www.GASCOGAS.com

Precision calibration gas for gas detection, analytical instrumentation and sample handling <> advanced process to extend reactive gas shelf life in made-in-the-USA aluminium <> wide range of simple mixtures such as ultra-high purity Nitrogen <> complex four gas mixtures <> highly reactive gas mixtures <> custom gas mixtures highest quality regulators <> carrying cases and accessories

Customer-specific ultrasonic transducers and sensors as well as testing equipment and measuring technology solutions for preventive maintenance, non-destructive testing.
